Title: Financial Assistance Policy

Important Notice: The official version of this document is contained in the Policy and Procedure Manager (PPM) and may have been revised since the document was printed.

I. Purpose

a. Cedars-Sinai Medical Center, Cedars-Sinai Marina del Rey Hospital, Cedars-Sinai’s Emergency Department physicians of Community Urgent Care Medical Group, Inc., Cedars-Sinai faculty physicians in their capacity as faculty or physicians employed by Cedars-Sinai Medical Care Foundation (“CSMCF”) or by medical groups which have an exclusive Professional Services Agreement with CSMCF (together, the “Organization”) is committed to
meeting the health care needs of all patients in the community and based on the following principles:

i. Treating all people equitably, with dignity, respect and compassion;

ii. Serving the emergency health care needs of all, regardless of a patient’s ability to pay; and

iii. Assisting patients who cannot pay for part or all of the care they receive.

b. This Policy demonstrates the Organization’s commitment to our mission, vision and principles by helping to meet the needs of the low-income uninsured patients and the underinsured patients in our community. As part of fulfilling this commitment, the Organization provides medically necessary services, without cost or at a reduced cost, to patients who qualify under this Policy.

c. This Policy provides guidelines for identifying patients who may qualify for financial assistance and establishes the financial screening criteria to determine which patients qualify for financial assistance.
II. Policy

a. **Definitions.** Capitalized terms used in this Policy are defined in the “Definitions” section at the end of this Policy or when first used.

b. **Covered Under this Policy.** Only services provided directly by the Organization will be covered by this Policy.

c. **Facilities, Physicians and Other Providers Not Covered by this Policy May Have Separate Financial Assistance Policies.** Community members of the Organization’s Medical Staff (i.e., providers not part of the Organization) may also make financial assistance available to their patients. The Organization will make available, on its website, a list of information it has regarding these physicians indicating whether specific physicians (or their medical group) will: (i) provide equivalent discounts from the physician’s professional fees to low-income uninsured patients as the Organization provides, based on the criteria set forth in the Policy; (ii) accept the Organization’s determination of a patient’s eligibility for financial assistance; and (iii) comply with all applicable federal, state and local laws, regulations, ordinances and orders with respect to the collection of consumer debt accounts. The Organization will not be responsible for
such physicians’ administration of financial assistance programs or their billing practices.

d. **Help Paying Your Bill - Eligibility Criteria**

i. **Financial Assistance.** Financial Assistance will be made available to patients whose family income and assets are at or below 400 percent of the current year’s FPL. Patients whose income ranges between 401 to 600 percent of the FPL also qualify for discounted care. Even though assets are included in the financial assistance application (“Application”), they will not be considered in determining eligibility for discounts. Attachment B sets out the ranges for financial assistance available from the Organization.

ii. **Pre-Service Patients (Elective/Non-Emergent Care).** Patients scheduled as elective inpatients or scheduled as non-emergent outpatients require prior approval for financial assistance by the Vice President, Finance and Chief Revenue Cycle Officer or their designee. Only medically necessary procedures are eligible for approval. Financial assistance for elective procedures and for follow-up care following discharge is limited to patients who live in the Organization’s service area or as otherwise approved by the Vice President, Finance and Chief Revenue Cycle Officer or their designee. The
Organization retains the right to prospectively not grant financial assistance in connection with a patient’s proposed non-emergency and other non-medically necessary care based on the need of the Organization to judiciously allocate its financial and clinical resources.

iii. **Additional Financial Resources and Required Patient Cooperation.** Patients approved for assistance under this Policy agree to continuously cooperate in the process needed to obtain reimbursement for the Organization’s services from third party sources such as the California Victims of Crime funds, the County Trauma Program, the Medi-Cal program, and health plans that offer coverage through the California Health Benefit Exchange (the “Exchange”). A patient’s application for third party coverage for the patient’s health care costs shall not preclude eligibility for assistance under this Policy. A patient shall, as a condition of financial assistance, apply for coverage under Medi-Cal, Healthy Families, and the County Trauma Program as applicable and, where appropriate, coverage under the Exchange. The foregoing shall also apply to patients residing out of
state and their application for Medicaid within their state.

The Organization will make appropriate referrals to local county agencies including Healthy Families, Covered California, Medi-Cal or other programs to determine potential eligibility.

The Organization shall be entitled to bill any third-party insurer providing coverage to a patient, including any source of third-party liability. Health insurers and health plans are prohibited from reducing their reimbursement of a claim to the Organization even if the Organization has waived all or a portion of a patient’s bill pursuant to this Policy.

iv. **Self-Pay Patients.** The Organization has made an assumption based on its historical experience and the current insurance environment that patients who lack insurance are not able to afford insurance. The Organization presumes that these patients are eligible for financial assistance programs and will make the following assistance available to all such patients unless the patient makes other arrangements for services provided by the Organization. The discounted amount, not billed to the patient, is uncompensated care that will be reported by the Organization consistent with

1. Self-Pay patients will automatically be billed at a discounted amount determined by multiplying the total charges by the Organization’s AGB percentage for applicable inpatient services, emergency room services or outpatient, non-emergent services.

2. Self-Pay patients are eligible for these discounts without submitting an Application. This financial assistance does not extend to elective procedures unless a specific agreement is made between the Organization and the patient.

v. **Medically Indigent Patients (Not Otherwise Eligible for a Discount).** Patients who are Medically Indigent but who are not otherwise eligible for financial assistance under this Policy may still request financial assistance in accordance with the process set forth in this Policy. The request for financial assistance due to Medical Indigency must be approved by Vice President,
Finance and Chief Revenue Cycle Officer or their designee, in their discretion.

e. **Financial Assistance Administration.** The Organization utilizes a single, unified patient Application for financial assistance. The process is designed to give each applicant an opportunity to receive the maximum financial assistance benefit for which they may qualify. Any patient who requests financial assistance will be asked to complete an Application.

i. **How to Apply.** The Application process can be initiated by the patient or any staff member of the Organization by contacting Patient Financial Advocates at 310-423-5071 or via email to patient.billing@cshs.org. This process includes the following:

1. Patients are provided with the Application, a Medi-Cal Application and information on Credit Counseling.

2. Applicants are offered assistance in completing the forms by Patient Financial Advocates at Cedars-Sinai South Tower, Street Level, Room 1740.
3. The Application may be completed orally with assistance from Organization staff but will still require a patient or representative to sign the Application.

ii. Reviewing Application

1. **Determination.** Eligibility guidelines are calculated using the current FPL as the measure of eligibility.

2. **Determinations by Affiliates and Approved Community Partners.** Patients who have recently had financial assistance applications approved by certain affiliates or Community Partners of the Organization, may be approved on an expedited basis by the Organization, at the Organization’s discretion. The Organization will advise patients applying for financial assistance if such expedited approval is available.

3. **Assets.** The consideration of assets in determining eligibility is limited to the definition in this Policy.

4. **Income.** For partial periods shall be included in worksheets using annualized data.
5. **Deductions.** Other financial obligations including living expenses and other items of reasonable and necessary nature will be considered.

6. **Patient Maximum Out-of-Pocket Expense.** Any payment from a patient for services covered by this Policy shall be limited to no greater than the AGB.

7. **Reevaluation.** Eligibility may be reevaluated by the Organization if any of the following occur:

   a. Patient income changes.

   b. Patient family size changes.

   c. A determination is made that any part of the financial assistance Application is false or misleading, in which case the initial financial assistance may be retroactively denied.

iii. **Submitting Required Documentation.** The Organization requests various documents from patients applying for financial assistance in order to
substantiate their eligibility. The documents may include, but are not limited to, the following:

1. Completed Application.

2. Income documents may include:
   a. Current period payroll check stub.
   b. Prior year’s tax return.
   c. Written explanation.

3. Asset documents may include:
   a. Copies of prior month’s bank statement (all pages).
   b. Money Market account statements.
   c. Stocks.
   d. Bonds.
   e. Certificate of Deposits.
   f. Brokerage accounts (excludes documents pertaining to retirement plans, deferred
compensation plans (both qualified and nonqualified under the IRS code)).
g. Unemployment, Social Security benefits, or Disability benefits stub.

iv. **Submitting Completed Application.** If a patient submits a completed Application, during the Application Period, then the Organization shall:

1. Immediately take all reasonably available measures to suspend or reverse any ECAs taken against the patient to obtain payment for the care. Such reasonably available measures generally include, but are not limited to, advising collection agencies to cease collection activities, measures to vacate any judgment against the patient, lift any levy or lien on the patient’s property, and remove from the patient’s credit report any adverse information that was reported to a consumer reporting agency or credit bureau.

2. Make a determination on eligibility or identify if Application is incomplete or requires additional information, within a reasonable time.

3. Promptly notify the patient in writing of the eligibility determination, including, if applicable,
the assistance for which the patient is eligible and the basis for the determination.

4. If the patient is eligible for financial assistance, then the Organization shall notify the patient in writing of eligibility, available assistance, the basis for determination and the service dates covered.

   a. If there is no patient responsibility, then no further steps are required other than refunding amounts paid as provided in the “Refunds” section of this Policy. If there is a remaining balance, then the Organization shall also notify the patient in writing, the amount the patient owes for care and describe how the patient can get additional account information.

   b. Once a patient is approved for financial assistance, the patient will not be charged more for emergency or other medically necessary care than the AGB.

   c. Approvals of eligibility may only be made by individuals specifically authorized by the Organization. This individual currently is the
Vice President, Finance and Chief Revenue Cycle Officer or their designee.

v. **Determination Letter.** After a patient submits a complete application and submits the required documentation, the Organization will send a letter to indicate the determination of approval or ineligible. The letter will include the following:

1. A clear statement of the determination for patient’s eligibility for financial assistance.

2. If the patient was ineligible for financial assistance, a clear statement explaining why the patient was denied.

3. If the patient was ineligible due to a service that was not medically necessary, the attending physician of the service will have attested to this prior to the denial.

4. If the patient was approved for financial assistance, a clear explanation of the reduced bill and instruction on how the patient may
obtain additional information regarding a reasonable payment plan, if applicable.

5. Contact information for the Organization, including department, contact name and where the patient may appeal the hospital decision.

6. Information on the Department of Health Care Access and Information’s (HCAI) Hospital Bill Complaint Program.

vi. **Patients with Limited Information for Application.** The absence of patient financial data available to the Organization does not preclude eligibility for financial assistance. In evaluating all factors pertaining to a patient’s clinical, personal and demographic situation, and alternative documentation (including information that may be provided by other charitable organizations), the Organization may determine a patient is eligible for financial assistance by making reasonable assumptions regarding the patient’s income.

vii. **Incomplete Application.** If a patient submits an incomplete Application, then the Organization shall promptly provide the patient with a written notice
that describes the additional information and/or
documentation required for the Application and
include contact information for Application
processing. If the patient subsequently completes the
Application with required information during the
Application Period (or such longer period of time as
elected by the Organization), then the Application
will be considered complete.

viii. **Incomplete Application Completed.** If a patient who
has submitted an incomplete Application during the
Application Period subsequently completes the
Application, within a reasonable timeframe given to
respond to requests for additional information and/or
documentation, then the patient will be considered
to have submitted a completed Application, and the
Organization will have made reasonable efforts to
determine whether the patient is eligible only if it
takes the other steps required by this Policy with
regard to completed Applications.

ix. **Anti-Abuse Rule for Applications with Questionable
Information.** The Organization shall not make
determinations that a patient is not eligible for
financial assistance based on information it has
reason to believe is unreliable or incorrect or on
information obtained from the patient under duress
or through the use of coercive practices. A coercive
practice includes delaying or denying emergency medical care to a patient until the patient has provided information requested to determine whether the patient is eligible for financial assistance for the care being delayed or denied.

x. **Handling of Incomplete Applications.** The Organization may consider a patient’s failure to provide reasonable and necessary documentation in making its financial assistance determinations. However, the Organization will act reasonably and make the best determination it can with the available information.

xi. **Presumptive Eligibility.** The Organization may determine that the patient is eligible for financial assistance for the current services based on information it has obtained or assessed without looking to the patient to provide all information required by the usual Application process or the fact that the patient has no health insurance. The Organization’s determination may include reliance on a prior determination by the Organization, information provided by another provider of the patient, or a general assessment of information available to the Organization’s staff. In such cases, the Organization shall (a) notify the patient of the basis for the presumptive eligibility determination and
the manner in which the patient may apply for more generous assistance available under the Policy; (b) give the patient One Hundred Twenty (120) days to apply for more generous assistance; and if the patient submits a complete Application seeking more generous assistance, then determines whether the patient is eligible for a more generous discount and takes the other steps required by this Policy with regard to completed Applications. Self-Pay patients receiving discounts described in this Policy shall receive such notice by means of the Plain Language Summary (see Attachment A) printed on their statements.

xii. **Patient Waivers Do Not Relieve the Organization of Obligation to Undertake Reasonable Efforts to Determine Eligibility.** Obtaining a verbal or written waiver from a patient, such as a signed statement that the patient does not wish to apply for assistance under the Policy or receive the information to be provided to patients under this Policy, will not itself constitute a determination that the patient is not eligible and will not satisfy the requirement to make reasonable efforts to determine whether the patient
is eligible before engaging in ECAs against the patient.

xiii. **Payment Plans.** When a patient is determined eligible for financial assistance and a balance remains, then they shall have the option to pay through a scheduled term payment plan. The Organization will discuss plan options with the patient and develop term payment plans that generally last no longer than twelve (12) months and are interest free. See the Organization’s Debt Collection policy for additional details.

xiv. **Dispute Resolution.** In the event a dispute arises regarding qualification for financial assistance, the patient may submit a written appeal for reconsideration with the Organization. The written appeal should explain the rationale for dispute and include supporting documentation. The Organization’s Manager of Customer Service and Operations or their designee will promptly review the appeal and provide the patient with a written determination. In the event the patient believes a dispute remains after the first appeal, the patient may request in writing, a review by the Organization’s Vice President, Finance and Chief Revenue Cycle
xv. **Confidentiality of Application Information.** The Organization shall maintain all information received from patients requesting eligibility under this Policy as confidential information. Information concerning income and Assets obtained as part of the Application and approval process shall be maintained in a file that is separate from information that may be used to collect amounts owed.

taxvi. **Time Period for Completion of Application (the “Application Period”).** Patients shall be given Two Hundred Forty (240) days to complete an Application. The Application Period begins on the date care that is subject to the Application was first provided (using the commencement of the last course of treatment if multiple dates of services are applicable).

d. **Term**

i. The initial financial assistance for Financially Qualified Patient’s approval is valid for a period of six (6) months from the date the Application was complete. Eligibility may be reassessed, upon patient request, at the end of the initial approval
period. At the Organization’s election, a new six (6) month approval period may be authorized without a new Application. After twelve (12) months, a new Application must be completed by the patient. Starting with the date the final Application is approved, open, qualified accounts will be written-off to financial assistance based on the level of assistance granted. On a go-forward basis, qualified accounts for the next six (6) months would be eligible for financial assistance write-off.

e. **Notices, Written Communications and Statements**

Summary of Financial Assistance Policy –
Plain Language Summary

As part of our mission, Cedars-Sinai Medical Center, Cedars-Sinai Marina del Rey Hospital and Cedars-Sinai Medical Care Foundation (the “Organization”) are committed to providing access to quality healthcare for the community and treating all of our patients with dignity, compassion and respect. This includes providing services without charge, or at significantly discounted prices, to eligible patients who cannot afford to pay for care as provided by our financial assistance policy (the “Policy”). We also offer our patients a variety of options to meet their financial needs, even if they do not qualify for assistance. This document is our plain language summary (the “Summary”) of the Policy.

Help paying your bill
Financial assistance will be made available to patients receiving medically necessary procedures and whose income and monetary assets (together “income”) are at or below 400% of the current year’s federal poverty level (FPL). Patients whose income ranges between 401%–600% of the FPL also qualify for discounted care. Discounts available to patients will be on a sliding scale based on family size, income level and insurance status. Financial
assistance for elective or non-medically necessary procedures or for care following discharge is limited to patients who live in the Organization’s service area and have prior approval by the vice president, Finance and Chief Revenue Cycle Officer or their designee. If a patient does not qualify for entirely free services but is eligible for a discount under the Policy, the patient will not be charged more than amounts generally billed by the Organization for emergency or other medically necessary care.

Attachment C
Amounts Generally Billed

Amounts Generally Billed ("AGB") means the amounts generally billed for emergency or other medically necessary care to patients who have insurance covering such care, determined in accordance with 26 C.F.R. §1.501(r)-5(b).

The Organization will use the Look-Back Method for determining the maximum amount that would be billed to an eligible inpatient using the average Medicare and commercial inpatient reimbursement rate. To further benefit an eligible inpatient, the Organization will use the lower of the AGB or the Medicare MS-DRG reimbursement amount for this episode of care in determining an eligible patient’s liability.

The Organization will use the Look-Back Method in determining the maximum amount that would be billed to an eligible outpatient using the average Medicare and commercial outpatient reimbursement rate.

The Organization will use the Look-Back Method in determining the maximum amount that would be billed to an eligible emergency room patient using the average Medicare and commercial emergency room reimbursement rate. Inpatient, outpatient and emergency room reimbursement rates are calculated at least annually using
the most recently closed Medicare accounts from the past 12 months.
