Jewish Advance Healthcare Directive

An easy-to-use form to make your goals, values and preferences known
Why should you have an Advance Healthcare Directive?

It is important to plan ahead and clearly state your healthcare goals, values and preferences. An Advance Healthcare Directive is the best place to do this. Your completed directive will give you and those close to you greater peace of mind. The process of filling out your directive may also help you talk with loved ones about what matters most to you.

There also is a number of resources available at Cedars-Sinai to help you complete your directive, including social workers, spiritual care experts and a free Advance Care Planning class. For information on these and other resources, please see the back cover of this document.
