

Seeking Healthy Volunteers for a Research Study

For More Information, Scan the QR Code and Fill Out Form

Researchers in the Medically Associated Science and Technology Program (MAST) are recruiting healthy volunteers to participate in a study to measure how far your abdominal organs drop from a prone position to an upright position. The study visit will be one to two hours and an X-ray will be taken*.

You may qualify to participate if you:

- Are over the age of 18
- Have not undergone abdominal surgery
- Do not have a history of gastrointestinal or pelvic disease
- Are not pregnant at the time of the study
- Do not have Ehlers-Danlos syndrome

Participants who complete the study will be compensated.

*The amount of radiation exposure in the X-ray is of minimal risk and is necessary to obtain the research information desired.
