

PROSTATE MRI QUESTIONNAIRE

PATIENT I.D.

Magnetic resonance imaging (MRI) uses a magnetic field, radio waves and a computer to create detailed images of the prostate and pelvis. This allows your physician to evaluate different types of body tissue and see differences between normal healthy tissue and diseased tissue. The exam takes about one hour.

Please answer the following questions if you are scheduled for this procedure today:

1. Have you used a fleet enema 2 hours before your scheduled exam? No Yes
2. Have you had a previous prostate MRI? No Yes Where / When _____

3. Have you had pelvic or prostate surgery? No Yes Where / When _____

4. Have you had a prostate biopsy or prostatectomy? Circle one Where / When _____

5. What is your PSA? _____ What is the Gleason Score? _____
6. Do you have Diabetes, Glaucoma or any other medical problems? *Please explain.*
